Basmala Said Mustafa

Frontend & Mobile Developer | React - React Native

Cairo,Egypt basmala30311@gmail.com 01018447538 LinkedIn GitHub

PROFILE

Frontend Developer and **Computer Science** graduate from the Faculty of **Computers and Artificial Intelligence** at Benha University. Skilled in building **responsive, scalable,** and **user-friendly** web applications using **React, JavaScript, TypeScript, HTML, and CSS.** Completed the **Front-End & Cross-Platform Mobile Development** Track at **ITI**, with hands-on experience **developing** real-world web projects. Experienced in **API integration**, **state management**, responsive UI development, and modern frontend practices. Gained professional experience at **Zoomix** working on **AI Automation Infrastructure** and **Web Infrastructure**, using **AI tools** to improve development **workflows**. Passionate about creating **intuitive, accessible,** and **visually engaging** user experiences, with strong **problem-solving** and **collaboration** skills.

PROFESSIONAL EXPERIENCE

AI Automation | Zoomix

- Worked on AI Automation Infrastructure
- Worked with AI tools and automation workflows to improve development processes.

Frontend Developer — Freelance | Drapey

Project / GitHub

- Developed a responsive e-commerce website for a fashion/clothing business.
- Built interactive and user-friendly interfaces using **Next.js and Supabase.**
- Implemented responsive layouts and reusable UI components.
- Integrated frontend functionality to provide a smooth shopping experience.

HRMS Website — Freelance | ASP.NET Core MVC

Project / GitHub

- **Developed responsive web interfaces using ASP.NET Core MVC, Razor, HTML, CSS, JavaScript, and Bootstrap.**
- **Built employee management, payroll, and leave tracking features.**

Internship

Front-End & Cross-Platform Mobile Development Intern - Information Technology Institute (ITI) **Jan 2026–June 2026**

Projects:

Graduation Project | Team Leader

· ReDolapy Website: Built Virtual Try-On, Smart Wardrobe, Outfit Recommendation, and Fashion Recycling features using React, React Native, Node.js, and MongoDB. *[GitHub]*

- · Integrated AI-driven clothing analysis, personalized styling recommendations, and partner store connectivity.
- · Developed an Admin Dashboard for user, store, product, and campaign management.
- · Implemented notifications, authentication, multi-language support, and PWA capabilities

ReDolapy Mobile App: Developed a cross-platform fashion application using React Native (Expo). *[GitHub]*

- · Built Virtual Try-On, Smart Wardrobe, Outfit Recommendations, and Fashion Recycling.
- · Implemented push notifications, dark mode, multilingual support (Arabic/English), and API integrations.
- · Enhanced user engagement through personalized fashion recommendations and seamless mobile experiences.

Furniture Website — Technologies: React.js, Context API, Tailwind CSS, Firebase *[GitHub]*

- · Developed a responsive furniture e-commerce platform.
- · Implemented product management and Firebase integration.

Travel Tour Website —Technologies: Next.js, Context API, Tailwind CSS, Material UI (MUI) *[GitHub]*

- · Built a responsive travel and tour booking website.
- · Developed reusable components and optimized performance using Next.js

Bakery Website —Technologies: HTML, Sass, JavaScript, Bootstrap *[GitHub]*

- · Developed a fully responsive bakery website with modern UI design.
- · Optimized layouts for desktop and mobile devices.

Movies Website —Technologies: React.js, Redux Toolkit, Material UI (MUI), REST APIs *[GitHub]*

- · Built a responsive movie browsing application with dynamic data fetching.
- · Implemented state management using Redux Toolkit.

Food Ordering Mobile Application — Technologies: React Native, NativeWind, Firebase, Expo *[GitHub]*

- · Integrated Firebase services for authentication and data management.

Full Stack.NET Development Intern- Digital Egypt Pioneers Initiative (DEPI) **November 2024 - May 2025**

Project:
MVC HRMS Website | Team Leader
Developing a Human Resource Management System (HRMS) using **ASP.NET Core MVC and SQL Server.** *[GitHub]*

- **Implemented employee management, payroll, leave tracking, and role-based access control.**
- Built responsive user interfaces using **HTML, CSS, JavaScript, and Bootstrap.**

Front-End Intern - Information Technology Institute (ITI) **August 2024 - September 2024**

Project:
· **Essence E-commerce Website** *[GitHub]*

- Developed a responsive e-commerce website for luxury perfumes and accessories using **React.js and Bootstrap**.
- Integrated APIs with **Axios** for dynamic product management and data retrieval.

.

Web Development Intern -National Telecommunication Institute (NTI) **February 2024 - April 2024**

Project:
·**IKEA-Inspired E-Commerce Website** **[GitHub Link]**

- Developed a responsive IKEA-inspired e-commerce website using **HTML, CSS, and JavaScript.**
- Built an Admin Dashboard for efficient product management operations.

EDUCATION

Computers and Artificial Intelligence, Banha University | 2021 – 2025

Bachelor's Degree in Computer Science (GPA: 3.4).

Graduation Project (GPA:4.0)

·Gzoor – Virtual Farm Platform

Technologies: **React.js, Axios, React Router, SignalR, Context API, Bootstrap 5, Chart.js, CSS Modules, SweetAlert2**

[GitHub]

- Developed a virtual farming platform that connects urban residents with farmers, enabling remote plant monitoring and farm management.
- Built responsive and interactive user interfaces using React.js, Bootstrap 5, and CSS Modules.
- Integrated real-time communication and updates using SignalR to provide live farm monitoring experiences.
- Implemented API integration, state management with Context API, and data visualization using Chart.js.
- Enhanced user experience through seamless navigation, notifications, and interactive feedback using SweetAlert2.

.

SKILLS

Front-End Development

- HTML5, CSS3, JavaScript (ES6+), TypeScript, jQuery, React.js, Next.js, PWA
- Bootstrap, Tailwind CSS, SASS, Material UI (MUI), and Responsive Web Design
- REST API Integration
- Context API, Redux Toolkit

Mobile Development

- React Native, Expo, Flutter (Basic)

Back-End Development

- ASP.NET Core MVC, ASP.NET Core Web API, Node.js (Express.js)
- Authentication & Authorization and RESTful API Development

Databases

- SQL Server, MongoDB, Oracle Database (Basic), SQL

Programming Languages & Computer Science Fundamentals:

- C++, C#, Python, Data Structures & Algorithms, Problem Solving, Design Patterns.

Testing & Quality:

- Vitest, React Testing Library, Jasmine, Unit Testing, Debugging, Clean Code (SOLID principles).

Methodologies:

- Agile/Scrum, Version Control, docker, PWA Development, Responsive Design,figma.

LANGUAGES

Arabic: Native

English: Advanced
